

Boys Volleyball in Nashville

Ethos VBC and *Tennessee Performance* are excited to partner together this year to offer a **Boys Volleyball program** for ages 12-18 in Nashville. This program will be a true joint-effort to help build the sport here in the Middle Tennessee area. Men's collegiate programs continue to be added to the NCAA yearly and sand volleyball is the #1 fastest growing sport in the country. We are hoping to lay a solid fundamental basis for these young men in order that they can play this sport we all love for the rest of their lives.

Hoping to have at least 2 teams this year and more in the future. If you are interested, please plan to attend the Open Gym & Meeting this Saturday
